

# Marta Michielon

## UX & UI Designer

“ Good design is invisible—  
but you’ll definitely feel it. ”

### PROFILE

I walk everywhere—just like I approach life: one step at a time, always with good music in my ears, preferably on vinyl. **Art and design have always been both the focus and the destination of my journey**, from art high school to my degree in Design, further enriched by a Master's in User Experience. **Driven by curiosity**, I've explored different areas of the digital world, with a growing passion for web design and UX. Over time, I've shifted roles to find the right balance between professional growth and personal well-being. **I'm a planner by nature**: I organize every detail to stay independent and focused, ensuring that work is delivered calmly and on time. Today, I'm **focusing my path on deepening my knowledge in digital accessibility**, to create experiences that are not only beautiful and functional, but truly inclusive. **I love expressing myself through my work, which is my greatest passion**; my creative skills are combined with a strong practical sense and good communication abilities.

- Self-confidence • Autonomy
- Plan & organise • Lifelong learning
